

# Running

This Century

Your head, your toes  
And everything that's in between  
Don't mean, don't mean a thing to me

Cause you're from concentrate  
You don't know how to keep it straight  
When you're around me, around me  
So I'mma concentrate on keeping sure  
You don't try to come back for more

Running me, running me in circles  
Yeah you're doing it, doing it again  
Why would you, why would you deny  
That we were never friends  
We were never friends  
We were never friends

Running me, running me in circles  
Yeah you're doing it, doing it again  
But I can see that obviously in the end  
We were never friends

Your eyes hide lies  
Lies you'll never tell  
You tried keeping me under your spell

Cause you're from concentrate  
You don't know how to keep it straight  
When you're around me, around me  
So I'mma concentrate on keeping sure  
You don't try to come back for more

Running me, running me in circles  
Yeah you're doing it, doing it again  
Why would you, why would you deny  
That we were never friends  
We were never friends  
We were never friends

Running me, running me in circles  
Yeah you're doing it, doing it again  
But I can see that obviously in the end  
We were never friends

Stop talking the talk  
Start Walking the walk  
Another mess, another mess you'll have to clean  
Stop talking the talk  
Start Walking the walk  
The walk  
The walk

Your eyes hide lies  
Lies you'll never tell

Running me, running me in circles  
Yeah you're doing it, doing it again

Why would you, why would you deny  
That we were never friends  
We were never friends  
We were never friends

Running me, running me in circles  
Yeah you're doing it, doing it again  
But I can see that obviously in the end  
But I can see that obviously in the end  
We were never friends  
We were never friends  
We were never friends  
We were never friends  
We were never friends
