Late Night

This Mortal Coil

When I woke up today and you weren't there to play then I wanted to be with you when you showed me your eyes whispered love at the skies then I wanted to stay with you

inside me I feel alone and unreal and the way you kiss will always be a very special thing to me

when I lay still at night seeing stars high and light then I wanted to be with you when the rooftops shone dark all alone saw a spark spark of love just to stay with you

inside me I feel, alone and unreal and the way you kiss will always be a very special thing to me

if I mention your name turn around on a chain then the sky opens up for you when we grew very tall when I saw you so small then I wanted to stay with you

inside me I feel, alone and unreal and the way you kiss will always be a very special thing to me

inside me I feel, alone and unreal and the way you kiss will always be a very special thing to me
