

## Rhyme And Reason

**This Time Next Year**

Out of my body, out of my mind  
My skin is tearing  
But my heart beats so fast it kills  
Just know I'm trying  
To make us whole again  
I can't stop until I get home  
You'll be the reason and I'll be the rhyme  
My inspiration like no one else  
You are the body that breathes this love  
So I promise it's all for you  
Another letter and I'll be just fine  
Two months away  
But my heart still looks back to you  
Just know I'm trying  
To make us whole again  
I can't stop until I get home  
Forget the heart ache  
Belated, this song is for you
