

# Runwayaway

Thom Yorke

We are forever  
We are forever  
That's when you don't  
That's when you know  
This is when you know who your real friends are  
Who your real friends are  
That's when you know  
That's when you don't  
This is when you know who your real friends are  
That's when you know  
That's when you don't  
Who your real friends are  
This is when you know, this is when you know  
Who your real friends are  
Who your real friends are, who your real friends are  
That's when you know  
That's when you don't  
This is when you know who your real friends are  
That's when you know  
That's when you don't  
That's when you know  
That's when you don't  
This is when you know who your real friends are  
That's when you know  
That's when you don't  
That's when you know  
That's when you don't  
That's when you know  
That's when you don't  
This is when you know, this is when you know  
That's when you know  
That's when you don't  
Who your real friends are
