

All You Need

Thomas Anders

All you need
I'll be all you need
I'll be all you need
Oooohh
All you need
I'll be all you need
I'll be all you need
Oooohh

What's up?
Hear what they're saying today
Don't you know it's not like that
Just gotta look the other way
You know now
That superstar and starring
It's getting on my nerves
And reading all the paper
See the same that used man

Girl you goona trust me
I'll never make the grade
So look me in the eyes when I say
You know that
All you need
Is what I tell you here
And I'll be all you need
Don't to listen to that ... They spin you now
All you need
I'll be all you need
I'll be all you need
Oooohh

So wait up
Not me again "What the f**k?"
Uuh-h
These paparazzi got me smoking
Come on, we'll gotta tear it up
You know now
That somewhere in the madness
This reality - the play
Live in picture perfect
Every second of the day

Girl you gonna trust me
I'll never make the grade
So look me in the eyes when I say
You know that
All you need

Is what I tell you here
And I'll be all you need
Don't to listen to that ... They spin you

All you need
I'll be all you need right here
All you need
I'll be all you need right here

You know now
That superstar and starring
It's getting on my nerves
And reading all the paper
See the same that used man

Girl you goona trust me
I'll never make the grade
So look me in the eyes when I say
You know that
All you need
Is what I tell you here
Cause I'll be all you need
Don't to listen to that ... They send you

All you need
Is what I tell you here
And I'll be all you need
Don't to listen to that ... They spent you

All you need
I'll be all you need right here
All you need
I'll be all you need right here

All you need
I'll be all you need
I'll be all you need
Oooohh
All you need
I'll be all you need
I'll be all you need
