

# Carry You With Me

Thomas Anders

Words, whispered and true  
Remain, when time fades away  
Like an unspoken vow in the air  
A silently powerful prayer  
Passes between us to say  
Your love is always there

I carry you with me  
Like the past and the future  
I know that you'll always be  
Part of every tomorrow  
I carry you with me

Life can be so unsure  
Like clouds, that change with the wind  
And I know that someday they'll be rain  
But a love like this won't wash away  
You're the truth written in my soul  
That time can never change...

Oh Baby, where ever I go  
You're never far away  
Part of every tomorrow  
I carry you
