

Carry You With Me

Thomas Anders

Words, whispered and true
Remain, when time fades away
Like an unspoken vow in the air
A silently powerful prayer
Passes between us to say
Your love is always there

I carry you with me
Like the past and the future
I know that you'll always be
Part of every tomorrow
I carry you with me

Life can be so unsure
Like clouds, that change with the wind
And I know that someday they'll be rain
But a love like this won't wash away
You're the truth written in my soul
That time can never change...

Oh Baby, where ever I go
You're never far away
Part of every tomorrow
I carry you
