Don't Say You Love Me

Thomas Anders

What you're gonna do when you get lonely
Someday
What you're gonna do when you remember
That's fading
And I don't need you
Living in this world is hard enough
But I remember when you made it easy
If you can't live without my love
There'll be no way back

Don't say you love me –
Don't say you need me after you gone
Don't say you love me –
You know that leaving me is got to be wrong
I close my eyes –
And think of heart is used to be
I close my eyes –
And you are here with me

What you're gonna do when you remember
That's fading
How you gonna feel when you want me
And you call me
And I don't need you
Living in this world is hard enough
But I remember when you made it easy
If you can't live without my love
There'll be no way back

Don't say you love me, don't say...

What you're gonna do?

Living in this world is hard enough
But I remember when you made it easy
If you can't live without my love
There'll be no way back
