

# Feel For The Physical

Thomas Anders

There ain't nothing in the rules  
Of the schoolbook, Baby  
On how I like to be touched  
No lessons on the way to be  
A lover to me  
I keep it hush, Baby

I never let it down my defenses, Baby  
But you crossed the line  
No I don't know how you do what you do  
But you do it so good  
It blows my mind

Baby, you've got feel for the physical  
Stripping away my selfcontrol  
The soul in your hands  
Is a miracle  
You are unreal  
How you'd get your feel  
For the physical  
Feel for the physical  
I feel it / Can you feel it baby?

I've seen poetry in motion, baby  
It don't move like you  
Only the devil could raise the  
Heat a hundred degrees  
And stay so cool  
There's no way that I'm the first  
To tell you  
But I wanna be the last  
'Cause I love the way  
You do what you do  
So slow, so true  
I'm gonna hold on fast  
Oh, Baby

I, I'm no easy prey  
But you found the way  
To turn my private light  
You touch me so deep  
I don't wanna sleep  
I want you all night

Can you feel it baby?  
So do it, so do it.
