

# I Wanna

Thomas Anders

You know  
I'm at your window  
Stand in the rain  
through night and day  
I see the way his lips move  
Is he in love with you?  
Baby he'll lie to you..

I wanna die, I wanna cry  
because I know the things he tells you  
Is he gonna love you right?  
I wanna try  
and make the life we had together  
make it last forever,  
Try,  
don't make wrong to right  
Stay by my side

At home,  
stand at the window  
Music from far away  
killing me night and day  
Love grows, dance with me so slow  
I live the past all night  
Is it too late to fight?

I wanna die, I wanna cry  
because I know the things he tells you  
Is he gonna love you right?  
I wanna try  
and make the life we had together  
make it last forever  
Try,  
don't make wrong to right  
Stay by my side

Baby he'll lie to you..

I wanna die, I wanna cry  
because I know the things he tells you  
Is he gonna love you right?  
I wanna try  
and make the life we had together  
make it last forever

I, I wanna cry  
because I know the things he tells you  
Is he gonna love you right?  
I wanna try  
and make the life we had together  
make it last forever  
Try,  
don't make wrong to right  
Stay by my side
