

Is It My Love

Thomas Anders

Every night he comes to you, stepping through your dreams
I long to be there in his place
In the dark I watch you smile as you lie asleep
I wish that I could see his face
Should I wake you now?
Call your name out loud
Tell me the name of love
Oh I've got to know, who's the one you're dreaming of

Is it my love that takes you through the night?
Is it my love that sets your heart all right?
Do you see me each time you close your eyes?
Is it my love in the dreamlands of your mind?
Is it my love?

Where the deep desire trees tremble in the mist
He'll keep you captured 'till the dawn
In his cloak of mystery wrapped around you tight
His arms are keeping you so warm
Should I wake you now?
Call your name out loud
How can I go on like this?
Oh I've got to know, who's the one you sleep to kiss
