

Kisses for Christmas

Thomas Anders

Look at all the people passing me by
All in a hurry, I wonder why
They miss the spirit they don't look at the lights
Shopping like crazy for the big night
I laugh and take a walk in the snow
I take it easy just because I know
What I'm getting

Kisses for Christmas
Is all I want from you
don't want them wrapped in fancy paper
Just gimme your lips I know what to do

Kisses for Christmas
Is what you'll get from me
No last minute shopping
just kiss me right under the tree

See the snowman with his carrot-nose
Children are happy now that it snows
They all have an endless list of toys
Barbies for girls, games for the boys
But I don't care about material things
I know already what Santa brings
I know he brings me

Kisses for Christmas
Is all I want from you
don't want them wrapped in fancy paper
Just gimme your lips I know what to do

Kisses for Christmas
Is what you'll get from me
No last minute shopping
just kiss me right under the tree

I close my eyes I count to three
I know exactly how sweet it will be
Don't ever stop, can't get enough
Just do it and show me your love, your love.

Kisses for Christmas
Is all I want from you
don't want them wrapped in fancy paper
Just gimme your lips I know what to do

Kisses for Christmas
Is what you'll get from me
No last minute shopping
just kiss me right under the tree.
