

Live Your Dream

Thomas Anders

Just live you dream
Don't dream your life!!

You can feel it in the air
You can see the vision getting so much closer
Makes you feel that you're getting there
You got to open your mind, makes you feel
You're one of a kind
A feeling so true, the hero in you

Just live your dream, dont dream your life
Take it to the max and you will see
Just live your dream, dont dream your life
There's no limit you'll be free
Living in a dream is a tragedy
Take me by the hand and I'll make you see
Live it up and let it shine, living your dream is no fantasy
Take me by the hand and I'll make you see
Live your dream and don't waste your time

You keep on running, wanna play the game
Wanna get as much as you can
Life's for living and living is free
That's all you need to understand
You got to open your mind
'Cause you're one of a kind
A feeling so true, the hero in you

Just live your dream, dont dream your life
Take it to the max and you will see
Just live your dream, dont dream your life
There's no limit you'll be free
Living in a dream is a tragedy
Take me by the hand and I'll make you see
Live it up and let it shine, living your dream is no fantasy
Take me by the hand and I'll make you see
Live your dream and don't waste your time

(Just live your dream!)

Just live your dream, dont dream your life
Take it to the max and you will see
Just live your dream, dont dream your life
There's no limit you'll be free, Ohhh...

Just live your dream, dont dream your life
Take it to the max and you will see
Just live your dream, dont dream your life
There's no limit you'll be free
Living in a dream is a tragedy
Take me by the hand and I'll make you see
Live it up and let it shine, living your dream is no fantasy
Take me by the hand and I'll make you see
Live your dream and don't waste your time
