

# Love You A Lifetime

Thomas Anders

I see you stand before my eyes  
An angel walking down from the skies  
I can't believe you're mine to treasure  
Your beauty takes my breath away  
I lose myself, I lose my way  
My love for you cannot be measured

Everytime, everytime I hear your name  
The sun would shine  
The way up through the darkness and rain

I will love you a lifetime, love of my life  
I'll always be with you, always standing by  
My love will take you high  
I will give you a sunshine, give you my life  
I'll always be with you, always standing by your side  
My heart's forever burnt  
I'll love you a lifetime

Now that I can see - I read the signs  
We're meant to be, you're one of a kind  
I wanna know what's on your mind

Everytime, everytime I hear your name  
The sun would shine  
The way up through the darkness and rain

I will love you a lifetime, love of my life  
I'll always be with you, always standing by  
My love will take you high  
I will give you the sunshine, I'll give you my life  
I'll always be with you, always standing by your side  
My heart's forever burnt  
I'll love you a lifetime  
I'll love you a lifetime
