

# Never Been Loved Before

Thomas Anders

If you love me  
Have never been loved before

I've been searching  
Didn't know what I'm searching for  
But I knew it had to be more  
I've been waiting  
For the day, you would come knockin' at my door  
Girl, you come knocking on my door

When it comes to love, I'll mess around  
When it comes to love, I stand my ground

If you love me, the way I wanna be loved  
I'm gonna love you, like you've never been loved before (Never  
been loved before)  
And if you treat me with respect a tenderness  
I'm gonna love you, like you've never been loved before  
You gonna back for more

When you're tasting  
Any taste, you can't resist  
You've just gotta have just one more kiss  
I ain't gonna waste it  
Gonna save her every single kiss  
I ain't got no better than this

When it comes to love, I'll mess around  
When it comes to love, I know what I found

If you love me, the way I wanna be loved  
I'm gonna love you, like you've never been loved before (Never  
been loved before)  
If you treat me with respect a tenderness  
I'm gonna love you, like you've never been loved before  
You gonna back for more

We've got it

But what we've got, is a natural thing  
Ready or not, I'm fallin' in  
We've come to far, to give it up  
Let there be no doubt, what I'm talkin' about
