

Stay A Little Longer

Thomas Anders

Stay a little longer
Time to make me stronger
To make you stronger
Enough to leave me breathless
To catch me when you're gone
Stay...
Mmm, oh, yeah, yeah

I know that we have to be apart
And there moments left are precious and few
No words can express how much I care
But the angels cried 'cause I'll be without you

Stay a little longer
Time to make me stronger
Enough to leave me breathless
To catch me when you're gone
Move a little closer
Still I need to hold ya
This love we share together
Will keep my lonely heart hanging on
Oh hanging on
I can read the future from your eyes
And it wouldn't change the way that I feel
Right now I just wanna to have you close
In this wishful world only you are for real
