

The Echo Of My Heart

Thomas Anders

What do you think that your love meant to me
Just illusion of reality
(Doing what you like)
What you like to do
(Doing what you like)
What you like to do
Love is changing everything
Love is changing everything

The echo of my heart is beating
Don't you know that I'm in feeling
All the doubts are growing in my mind
The echo in my heart's like thunder
Don't you know that love's a wonder
Just a secret heartache to explain

Got to find the way to understand
How we let it slip right through our hands
(Doing what you like)
What you like to do
(Doing what you like)
What you like to do
Love is changing everything (you know, you know)
Love is changing everything
You know your love is changing everything
You know your love is changing everything

The echo of my heart is beating
Don't you know that I'm in feeling
All the doubts are growing in my mind
The echo in my heart's like thunder
Don't you know that love's a wonder
Just a secret heartache to explain
