## No One Would Ever Know

## **Thomas Dybdahl**

I'll bide my time waiting For the perfect moment And all I need Is a quiet little corner and a conversation

No one would ever know Everyone tells me so No one would ever know

I want you, I wanna touch you And feel your skin Do you want me, 'cause I could stay If you need some company?

No one would ever know Everyone tells me so No one would ever know Everyone tells me so
