

# Rain Down On Me

Thomas Dybdahl

When you're young  
Everything's easy  
It's a summerbreeze,  
You're alive but times they change  
Everything's rearranged  
Summer moves on,  
Nothing can stop these tears from falling

Love is deep,  
Love is wide  
I'm still here by your side

Let it all rain down on me  
It happened too soon  
Lay your head  
Down upon my shoulder

Let it all rain down on me  
It happened too soon  
Lay your head  
Down upon my shoulder  
(I'll keep you warm when the nights grow colder)

Don't hold back  
I know it's not easy  
Everyone gets a little scared  
But time will heal even a heart of steel  
So don't try to run

I'll try to stop your tears from falling

Love is deep,  
Love is wide  
I'm still here by your side

Let it all rain down on me  
It happened too soon  
Lay your head  
Down upon my shoulder

Let it all rain down on me  
It happened too soon  
Lay your head  
Down upon my shoulder  
(I'll keep you warm when the nights grow colder)

I'll always be by your side  
Holding you close  
Holding you tight  
I'll always be by your side

Let it all rain down on me  
It happened too soon  
Lay your head  
Down upon my shoulder
