

Tomorrow Stays The Same

Thomas Dybdahl

If Annie asks : will there be a bigger room tomorrow ?
are you man enough to tell ?
and if Annie asks : how about an evening, with dinner and
romance ?
are you man enough to tell ?

It's been a long, long time for you to bear my friend
it's like an endless string of tomorrows
it's been a long, long time for you to bear my friend
but just like yesterday, tomorrow stays the same.

You tell yourself, start being cynical, don't get your
hopes up darling
but you want it so bad you can help
you let them drag you down all too easily, it's far too
much for me
just believe in yourself and you'll prove them wrong.

It's been a long, long time for you to bear my friend
it's like an endless string of tomorrows
it's been a long, long time for you to bear my friend
but just like yesterday, tomorrow stays the same.
