

## Armchair Travel

Thomas Giles

The compass drifts again  
Stomach in knots  
I can't pretend  
This life flies by in the wind  
A green that wants to grow  
I already miss you so  
Chloe even said don't go  
There's one thing you all should know  
I truly love you so  
I truly love you so

Even though I'm far  
I'm so close to you  
Even though I'm gone  
I'm right in front of you

I wrote this song for when I'm gone  
Come thorough in the night too long  
I'll be back very soon  
These seasons sure do go  
I already miss you so  
Chloe even said don't go  
There's one thing you all should know  
I truly love you so  
I truly love you so

Even though I'm far  
I'm so close to you  
Even though I'm gone  
I'm right in front of you
