Thomas Giles

The compass drifts again
Stomach in knots
I can't pretend
This life flies by in the wind
A green that wants to grow
I already miss you so
Chloe even said don't go
There's one thing you all should know
I truly love you so
I truly love you so

Even though I'm far
I'm so close to you
Even though I'm gone
I'm right in front of you

I wrote this song for when I'm gone
Come thorough in the night too long
I'll be back very soon
These seasons sure do go
I already miss you so
Chloe even said don't go
There's one thing you all should know
I truly love you so
I truly love you so

Even though I'm far
I'm so close to you
Even though I'm gone
I'm right in front of you
