

# Hypoxia

Thomas Giles

You've heard it once before  
It's only up from here  
Doubt way down with force  
We do all that we can  
Yes we do

That's all you need

Keep movin', keep swimmin', keep breathin'

I know you think judgement's made  
There's no looking down here  
Ignore the weight of the wall  
'Cuz it's only up from here

You'll go to the place you ride  
And love like you've always loved  
Yes you have

That's all you need

Keep movin', keep swimmin', keep breathin' (oooh)  
Keep movin', keep swimmin', keep breathin' (oooh)  
Keep movin', keep swimmin', keep breathin' (oooh)  
Keep movin', keep swimmin', keep breathin'
