

Summer Breeze

Thomas Godoj

She dances - to old records
Brings the speakers out
She takes me to the rooftop to
Sing out loud

She said
Look it's all so easy
Don't you lose you're faith now?
Everything's (so) small from up here

She's like a summer breeze
On cold and dark winter days
Just like a star inside the roaring skies
And I know she has got
My cure for heart disease
'Cause she's like a summer breeze

Lost in clouds - Until I found
My ground again
She covers me with (her) honesty
She's heaven sent
Yeah heaven sent

She jumps around
Does Cartwills
In the living-room
She so carefree
What would I be?
So pure and sweet - all I need

She said
Look it's all so easy
Don't you lose your faith now!
Everything's fine from here

She's like a summer breeze
On cold and dark winter days
Just like a star inside the roaring skies
And I know she has got
My cure for heart disease
'Cause she's like a summer breeze

We share the shade at the waterfront
She lets me be who I want
She doesn't care
What people think or say
She spreads her magic every day
