## **Kiss Me Like a Stranger**

## **Thomas Rhett**

Busy working hard, wrapped up in my job, we got bills to pay Lately, when we talk, it feels like I don't hear a single word you sa Y Can we get back to the basics and find that young love and make it Tear down all these walls, ignore all of our calls and just stay in

Kiss me like a stranger Baby, hold me like we've never met Every touch a little danger Like you ain't gotten used to me yet Strike a match, light the fuse You and I, we could use some reckless behavior So, baby, kiss me like a stranger

Lightning on my skin, every touch remembering what you mean to me Let me reminisce my lips on your lips like a symphony You're playing on my heartstrings

Kiss me like a stranger Baby, hold me like we've never met Every touch a little danger Like you ain't gotten used to me yet Strike a match, light the fuse You and I, we could use some reckless behavior So, baby, kiss me like a stranger

It's been a little crazy lately Come on and remind me, baby Well, girl, don't keep me waiting Come on over my way and lay it on me

And kiss me like a stranger Baby, hold me like we've never met Every touch a little danger Like you ain't gotten used to me yet Strike a match, light the fuse You and I, we could use some reckless behavior So, baby, kiss me like a stranger

Ooh, won't you kiss me, won't you kiss me Won't you kiss me like a stranger Mmm, yeah, won't you kiss me like a stranger Ooh, I got plans for you, I got plans for you I got plans for you, I got plans for you Kiss me like a stranger I feel it now, ooh, I feel it now, ooh, I feel it now, ooh
