## **Playing With Fire**

## **Thomas Rhett**

I know I should let it go Take a different road When I'm driving home But I don't want to

Delete your number from my phone Instead of calling Asking if you're all alone But I don't want to

Stay away
From your side of town
But it's too late
I'm in your drive right now

I don't know, why I don't
Put it out baby
We kiss and the flames
Just get higher
But yeah I know
When I hold onto you baby
I'm all tangled up in barbed wire
I get burned, I don't learn
I'll be back, give it time
Yeah, I know it sounds crazy
But guess I like playing with fire

000-000

I could find a spot to Go hang out on Friday night Where you are gonna be But I don't want to, no

Yeah, I could let it end Call it quits, call off All this on and off again But I just don't want to

Yeah that key
Is right under the mat
Come on in, baby
Let's strike that match

I don't know, why I don't
Put it out baby
We kiss and the flames
Just get higher
But yeah I know
When I hold onto you baby
I'm all tangled up in barbed wire
I get burned, I don't learn
I'll be back, give it time
Yeah, I know it sounds crazy
But guess I like playing with fire
Playing with fire

So let's fire it up one more time (Fire it up one more time)
Baby just put your lips on mine (Lips on mine)

I don't know, why I don't Put it out baby We kiss and the flames Just get higher (We kiss and the flames Just get higher) But yeah I know When I hold onto you baby (Onto you baby) I'm all tangled up in barbed wire (All tangled up) (I'm all tangled up) I get burned, I don't learn I'll be back, give it time (Give it time) Yeah, I know it sounds crazy (Sounds crazy) But guess I like playing with fire (Playing with fire) Playing with fire (Playing with fire)

Playing with fire, huh
