

I Got You

Thompson Square

A car's got gasonline to run, down the road
A crop's got rain, dirt and sun, to make 'em grow
A song's got rhyme, a clock's got time
You got me and baby

Chorus

I got you

Yea you're it, the missing piece that makes me fit

I got you, the breath I breathe, and there ain't nothing else I
need

Baby I got you,

Yeah yeah yeah yeah

I don't need a big ole house, full of stuff
What my arms are wrapped around, that's enough
Your morning smile, your kiss goodnight
And everything's alright

Repeat Chorus

When the right goes wrong

When I'm scared to death and got nothing left to lean on

I got you

Yeah yeah yeah yeah

Yeah I do

Baby I got you

Yeah yeah yeah

Yeah you got me to

Repeat Chorus

Yeah baby

I got you

Yeah yeah yeah yeah

Baby I got you

Baby I got you
