

# If I Didn't Have You

Thompson Square

Sometimes it feels like, I'm gonna break

Sometimes this world, gives more than I can take

Sometimes, sunshine gets lost in the rain

And it keeps pouring down

It just keeps coming down.

This life would kill me If I didn't have you

I couldn't live without you baby

I wouldn't want to

If you didn't love me so much

I'd never make it through

'Cuz this life would kill me

This life would kill me if I didn't have you.

You are my heart, every breath I breathe

I'm safe in your arms, you rescue me.

When I'm weak, you're strong

If you were gone I don't know where I'd be

You were made for me

(You were made for me)

This life would kill me If I didn't have you

I couldn't live without you baby

I wouldn't want to

If you didn't love me so much

I'd never make it through

'Cuz this life would kill me

This life would kill me if I didn't have you

If you didn't love me so much

(If you didn't love me so much)

This Life would kill me If I didn't have you

(This life would kill me)

Couldn't live without you baby

I wouldn't want to

If you didn't love me so much

I'd never make it through

'Cuz This life would kill me

This Life would kill me if I didn't have you
