

All Fall Out

Thompson Twins

Hey!

This is where we all fall out
This is where we all fall out
This is where we all fall out
This is where we all fall out

I touch my hand,
And I can hear her dance,
And I see you you glowing,
I always, I always, I always, I always,
Dream, dream in red,
Yes, I dream, dream in red.

This is where we all fall out
This is where we all fall out

I can't find my way,
And I don't dare to shout,
And I hear someone talking,
I always, I always, I always, I always,
Dream, dream in red,
Yes, I dream, dream in red.

This is where we all fall out
This is where we all fall out
This is where we all fall out
This is where we all fall out

Dream, dream in red
Yes I dream, dream in red.
I always...

This is where we all fall out (always dream in red)
This is where we all fall out (always dream in red)
This is where we all fall out (always dream in red)
This is where we all fall out (always, always, always dream in red)

This is where we all fall out (always dream in red)
This is where we all fall out (always dream in red)
This is where we all fall out (always dream in red)
