

## Emperor's Clothes

Thompson Twins

I'm sick and tired of repeating history  
Of waving flags that don't mean much to me  
Black versus white, women versus men  
The power of the dollar and the price of yen  
I'm sick and tired of payaing for the sins  
Of fathers and the mothers and the pushers and the shovers  
But most of all the Lord about us  
Who made this stupid mess we're in

We have a vision of a better time  
Where we all live in grace and pride  
And everyone will have their say  
And know they're part of the future way  
We have a dream of heaven on earth  
Where we all work together and know our worth  
Where joy and laughter and love and affection  
Will keep us movin' in the right direction
