Make Believe

Thompson Twins

I had a dream and the dream came true I saw a ghost and the ghost was you But in the dark it was hard to see That you were only make believe

Some people can't be left alone They can't be happy on their own Some people need to find a friend I never knew this was in my head

I wandered to an empty playground All I needed was a friend Instead of playing hide and seek I played let's pretend Lets pretend

I had a dream and the dream came true I saw a ghost and the ghost was you But in the dark it was hard to see That you were only make believe

Whenever I am feeling lonely Whenever I am at an end I draw a picture inside my head I could see you once again

I had a dream and the dream came true I saw a ghost and the ghost was you But in the dark it was hard to see That you were only make believe

I'm building giant towers
Day and night without relief
I don't need a team of helpers
I make do with make believe

I had a dream and the dream came true I saw a ghost and the ghost was you But in the dark it was hard to see That you were only make believe

I had a dream and the dream came true I saw a ghost and the ghost was you But in the dark it was hard to see That you were only make believe
