## Savage Moon

## **Thompson Twins**

The pressure is on - the wolf is at the door All the ghosts that haunt my life are screaming out for more I try to fight them But I just can't win I'm always on the outsied Always tryin' to get in Tell me again of what love can bring oh-oh

I was touched by a savage moon I was kissed by a burning sky I can run away but there's nowhere to hide I'll be running 'til the day I die

Well there's a civil war that's raging Raging in my soul c'mon hold me close Save me from the cold If you take a chance I'll take one too It won't be that hard When we've got nothing to lose Weave me a tale where love is true

If I could believe in fairytales A life of happy endings that would never ever fail Tell me a story where love is true
