

Changes

Thornley

So I've tried out all the pick-me-up's
and I've sipped red whine from a dixie cup
And I can't change, I can't change
And I need to see thing's I've seen in
pictures, instead of hangin' around the house
like a mess in the kitchen
I can't chage, I can't change.

The list of thing's I've never done
just keeps getting longer
I'm tired of trying to put it off until tomorrow
This can't stay the same

Somewhere there's gotta be something
waiting for me out there. There's gotta be
something more to show me the list
of thing's I've never done, just keeps
getting longer. This has got to change

I'm in the corner of the room like a pile of dust
I've got a voice in my head screaming,
"This is enough" but I can't change, I can't change
Watching TV is like a kick in the nuts, you've gotta
be a brain surgeon or an astronaut, but I can't
change, I can't change

The list of thing's I've never done
just keeps getting longer
I'm tired of trying to put it off until tomorrow
This has got to change

Somewhere there's gotta be something
waiting for me out there. There's gotta be
something more to show me the list
of thing's I've never done, just keeps
getting longer. This has got to change

Some things can't stay the same
(Somethings got to change)

This has got to change!
