

Screws Get Loose

Those Darlins

I got on a plane
Cause I was going insane
And I took a little trip uptown

The plane it started shakin'
My stomach started achin'
I thought that it was going down

The plane it finally landed
I could hardly stand it
Just put both feet on the ground

Shoulda took my meds man
All these dirty kids man
Pushin' each other around

Can't blame me for what I chose
Ooh screws get loose
Can't change me after all the abuse
Ooh screws get loose
Can't blame me for who I use
Ooh screws get loose

Oh I went to a doctor
Guess I musta shocked her
When I told her what my trouble's about

She didn't understand me
Said I'm too demanding
And they don't just hand that stuff out

The sun and the shine
Was a'rattlin' my mind
So I got underneath the ground

Subway was a'stinkin'
My brain just wasn't thinkin'
And I rode it to the outskirts of town

Can't blame me for what I choose
Ooh screws get loose
Can't change me after all the abuse
Ooh screws get loose
Can't blame me for who I use
Ooh screws get loose

Can't blame me for what I choose
Ooh screws get loose
Can't change me after all the abuse
Ooh screws get loose
Can't blame me for who I use
Ooh screws get loose
