

Waste Away

Those Darlins

Am I on rerun cause don't you know
I've already seen this flic
When I was a young girl late at night
I met the sunflower witch
I still see her layin' there
It haunts me in my dreams
Why are you dead set on joining her
In her misery

I don't wanna watch you waste away
I don't wanna watch you waste away
I've seen you fall and forget it all
You don't wanna watch me do the same

What happened that makes you wanna go
Face first into the ground
What happened to me that I keep
Followin' you around
Now it's time to forget our love
And let you fade away
It may hurt I'm ok
She can watch you waste away

I don't wanna watch you waste away
I don't wanna watch you waste away
I've seen you fall and forget it all
You don't wanna watch me do the same

Aaah aaah
Aaah aaah
Ooo ooo
Ooo ooo
Aaah aaah
Aaah aaah
Aaaaaaah

I know I add fuel to the fire
But man we had a ball
Sunburnt skin a bad boy grin
Holdin' hands in Montreal
Why do I spend so much time
Bitin' my own teeth
Keep tearin' yourself apart
You'll be the sunflower king

I don't wanna watch you waste away
I don't wanna watch you waste away
I've seen you fall and forget it all
You don't wanna watch me do the same
