

Chemical Church

Those Poor Bastards

Just like toxic waste, man,
It spews from their mouths
The lies that they want us to believe
And if you disagree,
Well they'll throw you to the wolves
That's the Chemical, the Chemical, the Chemical Church

They keep their houses swept,
And their suits all pressed and clean
Their thoughts and their actions all the same
But deep within their bones,
I smell their soul's decay
That's the Chemical, the Chemical, the Chemical Church

It has poisoned us all
It has poisoned us all

"If you are not white,
Then you are not a man"
That's what I heard a preacher say
"And if you sodomize,
Then you deserve to die"
More bullshit from the Chemical, the Chemical, the Chemical Church

So if you've got some gasoline,
Then give it to the cause
Nothing else can cleanse like fire
We'll burn these corporate churches,
And the Lord above will smile
At the death of the Chemical, the Chemical, the Chemical Church

It has poisoned us all
It has poisoned us all
