

Everything Is Gone

Those Poor Bastards

Boards on all the window
Main street's closed down
All the trees are empty
Everything is gone

Everything is gone
Everything is gone
Something terrible happened
Everything is gone

The dam is cracked and crumbling
The cars are rotted brown
The sheep, they have no shepherd
Everything is gone

Everything is gone
Everything is gone
Something terrible happened
Everything is gone

No more endless worry
No more snake-tongued friends
All of us are poor now
We're finally at the end

Everything is gone
Everything is gone
Something terrible happened
Everything is gone
