

## This World Is Evil

### Those Poor Bastards

Who will cast the first stone?  
Who will send me back home?  
Sin is eating up my bones  
I'm walkin with the Devil

This world is so evil  
lord, lord, lord

Down there in old Arkansas  
They'll hang a man before his trial  
Beat him down and string him up  
Just to watch him suffer

I knew a man from 'round those parts  
He had a kind of nervous heart  
Some friends of mine tore him apart  
I think he was my father

Well, well, wella  
Satan is watching as you walk down the road  
Satan is watching as you sleep

All I wants deliverance  
Free me from this terrible mess  
Lord, if you're hearin' this  
Give my spirit shelter

Send some lightning from the clouds  
Get me off this dead-end road  
I will do just as I'm told  
Burn me to a cinder

Take my soul up to the sky  
Like a vulture I will fly  
To this world I say goodbye  
Hello, Holy Savior!
