## This World Is Evil

## **Those Poor Bastards**

Who will cast the first stone?
Who will send me back home?
Sin is eating up my bones
I'm walkin with the Devil

This world is so evil lord, lord, lord

Down there in old Arkansas
They'll hang a man before his trial
Beat him down and string him up
Just to watch him suffer

I knew a man from 'round those parts He had a kind of nervous heart Some friends of mine tore him apart I think he was my father

Well, wella Satan is watching as you walk down the road Satan is watching as you sleep

All I wants deliverance Free me from this terrible mess Lord, if you're hearin' this Give my spirit shelter

Send some lightning from the clouds Get me off this dead-end road I will do just as I'm told Burn me to a cinder

Take my soul up to the sky Like a vulture I will fly To this world I say goodbye Hello, Holy Savior!
