

## Bruised

### Those Who Fear

I will never forget  
Don't make me remember  
I was consumed by fear and hate  
Nothing could ever get close to me  
Back when I was bruised and young  
Alive was my middle name  
I would never care about anything  
But now those times are gone  
Now those times are gone  
A bad memory of a forgotten past  
I'll never forget  
Father forgive me  
I'll never forget  
Now I'm living day by day  
But the memories of the past won't go away  
Father forgive me  
Don't make me remember  
I was young and so naive  
Don't make me remember  
I was full of hate and fear  
Don't make me remember  
I will never forget
