

Desire, Lust And Incubus

Thou Art Lord

The countless days and nights she prayed
An astral call made out of lust
Her body in heat, her lorns aflame
Feverish dreams, desire of sin
She bathed herself in Venus' tears
Painted her markings on her skin
Through heathen charms and ancient spells
Her passion found it's way to Hell

The Demon Lord has felt her heat
Her summoning has reached the Sin

Deep in his twilight kingdom
He spread his wings against the nightdom

He found her draped in altar cloth
She spread her legs and bared her breasts
Luscious wet lips, heart beating fast
Waiting his deviant demon touch
He found her draped in altar cloth
She spread her legs and bared her breasts
Luscious wet lips, heart beating fast
Waiting his deviant demon touch

He entered her in delirium state
Twisting like serpent, slippery and wet
He made her cum a thousaint times
And filled her womb with devil seed
And then she fell in a deep sleep
Exhausted from this lucid dream
And just before the crack of dawn
He spread his wings against the night sky

The Demon Lord has felt her heat
Her summoning has reached the Sin
Deep in his twilight kingdom
He spread his wings against the nightdom
The Demon Lord has felt her heat
Her summoning has reached the Sin
Deep in his twilight kingdom
He spread his wings against the nightdom
The Demon Lord has felt her heat
Her summoning has reached the Sin
Deep in his twilight kingdom
He spread his wings against the nightdom
The Demon Lord has felt her heat
Her summoning has reached the Sin
Deep in his twilight kingdom
He spread his wings against the nightdom
