

Satanic Aphorisms

Thou Art Lord

Visions of dark red skies
Painted by menstrual blood
Filled with desperation
Of the loneliness of Satan

Pentagrams carved in stone
Inspired in the unsound soul
Of a nameless wizard
Conceived in oblivion

(Chorus)

I curse you, I despise you
I hate you, I corrupt you
I hurt you and violate you
I spit and I deceive you

Exquisite velvet sins
Draped in deep perversion
No mercy, no forgiveness
The sacred world of Magic

Shattered dreams of cruelty
Disappearing into nothingness
Created by the Demiurge
Of a dead universe
