

A Different Kind of Dynamite

Thousand Foot Krutch

Feel the ground shake!

I came to set it off
To kick these windows and these doors
Like a rebel with no pause
Ignite it like a boss
When it's on
I stand tall like King Kong
If you want me
You'll find me in the eye of the storm

Like shots fired in the middle of Vegas
Roll tide in the middle of streets
Like a dog fight in a clear blue sky
We fight with the different kind of dynamite!
A different kind of dynamite! (x2)

Don't underestimate me
I run with giants and no safeties
You can call me crazy
But keep hating
It don't phase me
Bring it on
Your whole empire vs. my Messiah
Facin' different types of goliaths
Taking it higher

Like shots fired in the middle of Vegas
Roll tide in the middle of streets
Like a dog fight in a clear blue sky
We fight with the different kind of dynamite!
A different kind of dynamite! (x2)

And the shots ring out
Let the shots ring out
And the shots ring out
Let the shots ring out!

Like shots fired in the middle of Vegas
Roll tide in the middle of streets
Like a dog fight in a clear blue sky
We fight with the different kind of dynamite!

Like shots fired in the middle of Vegas
Roll tide in the middle of streets
Like a dog fight in a clear blue sky
We fight with the different kind of dynamite!
A different kind of dynamite! (x2)
