

Complicate You

Thousand Foot Krutch

I was amazed by your light
Taken so far back, I was hiding
I think you took me by surprise
The way you made me feel inside

It was more than just a moment shared
Like something else was in the air
I've never felt this way before
Not since ever since
You walked through that door

[Chorus]

I don't wanna complicate you
You seem perfect the way you are
Excuse me I'm taken by the
Way that you light my fire [x2]

You kidnapped the night
It's like you're walk in on the light
Like an angel in disguise
You made me forget I was tired

And then I walked up to you
As you walked up to me
It's like your eyes were make-believe
I can't breathe better me
Than you, think I should leave

[Chorus]

I don't wanna complicate you
You seem perfect the way you are
Excuse me I'm taken by the
Way that you light my fire [x2]

Light my fire
Light my fire [x2]

[Chorus]

I don't wanna complicate you
You seem perfect the way you are
Excuse me I'm taken by the
Way that you light my fire [x2]

Light my fire
Light my fire [x2]
