

Give up the Ghost

Thousand Foot Krutch

Are you ready?
I'm a rose that's been raised by wolves
My thorns are getting stuck in everything I know
It's so hard when you would bleed
For the truth you know
But we don't want the truth
We just want control
(I'm on my own here we go)
C'mon man, put it on me
If you want it
Couse I'm sick and tired of all of this
Flaunt it, if you want it and you can own it
But I'm just going to let it go

I've seen the devil and I've met fear
I Met them both on the road,
That lead me here
I've met God and I saw life
And he saved mine a million times
I've met trouble and I've met rain
Laughed with joy and cried with pain
But now I see and I believe
That the ghosts that haunt me
Have been outhaunted

I'm a long way from way back from home
Been travelling like a bullete everywhere I go
It gets harder to reach
When you're in control
Cause you've either got the money
Or it's got your soul

(I'm on my own here we go)
C'mon man, put it on me
If you want it
Cause I'm sick and tired of all of this
Flaunt it, if you want it
And you can own it
But I just going to let it go

I've seen the devil and I've met fear
Met them both on the road,
That lead me here
I've met God and I saw life
And he saved mine a million times
I've met trouble and I've met rain
Laughed with joy and cried with pain
But now I see and I believe
That the ghosts that haunt me
Have been outhaunted

They never told me that I could be
Free from the hate that's inside of me
They took my place,
took my dignity
They kept me caged like an enemy
But, I know now I can be

free from the pain that's inside of me
You took my place,
gave me air to breathe
Opened the cage and you set me free

I've seen the devil and I've met fear
Met them both on the road,
That lead me here
I've met God and I saw life
And he saved mine a million times
I've met trouble and I've met rain
Laughed with joy and cried with pain
But now I see and I believe
That the ghosts that haunt me
Have been outhaunted.
