

Puppet

Thousand Foot Krutch

Gonna get this party started

It's all around me
And I can't wish this away
You so amaze me
You took my monster away
It's all around me
And I can't wish this away
You so amaze me
You took my monster away
and away, and away, and away

Wake me, c'mon and wake me up now I
Want to cut off my strings and break,
Loose of your control of me,
Cut your strings and be free with me,
Wake, and wake me up now I want
To cut off my strings and break, loose
Of your control of me, cut your strings
And be free with me

Everybody, shake your body
Lift your hands, stop frontin'
You're just a puppet
Everybody, shake your body
Lift your hands, stop frontin'
You're just a puppet
To all the marionettes

If your gonna run, how fast ya gonna run?
And If your gonna jump, how high can you jump?
All you perpetrators be walkin' round frontin'
What?, you fakers afraid to stand for somethin'?
If you're gonna run, how fast ya gonna run?
And if you're gonna jump, how high ya gonna jump?
All the perpetrators be walkin' round frontin'
Why don't you stand up and break me off somethin'?

Ya wanna make it outta sight?
Somebody wanna get live tonight?
We can hit that, flip that, settle the score
'n' ain't nobody rock a crowd like this before
Ya wanna make it outta sight?
Somebody wanna get live tonight?
Like an earthquake, let it shake
Make the floor vibrate, Krutch y'all
Back to set the record straight

All y'all people, listen, it's on
Krutch marauders we on a mission
Hittin' ya with the air ammunition
At war with the puppet master
I'll bring it on if I had to
Rip it 'n' leave the whole scene shattered
Like, chik, blaow!, what ya think of me now
I'm lettin' my dawgs out
Makin' it loud so hear me shout, what?

We be comin' laced with bass
Hit the place with no trace
When we rock the space

Everybody, shake your body
Lift your hands, stop frontin'
You're just a puppet
Everybody, shake your body
Lift your hands, stop frontin'
You're just a puppet
To all the people still sleepin

If your gonna run, how fast ya gonna run?
And If your gonna jump, how high can you jump?
All you perpetrators be walkin' round frontin'
What?, you fakers afraid to stand for somethin'?
If you're gonna run, how fast ya gonna run?
And if you're gonna jump, how high ya gonna jump?
All the perpetrators be walkin' round frontin'
Why don't you stand up and break me off somethin'?
