

Smack Down

Thousand Foot Krutch

Get ready for the smack down
Get ready for the smack down
How ya gonna react
When ya put on ya back now
'Cause there's no turnin' back
When you're facin' the smack down

Come on, let's kick it, let's all get wicked
Put your hands in the sky for a one-way ticket
C'mon!

Come on everybody, gonna start this party
If we turn it to 11, the we can't go wrong

And I'm not tryin' to tell you
There won't be a lonely road
When it all comes down
You'll know just what to do
Gonna burn this down
And keep on runnin'
'Till my time here is through
'Cause when it all comes down
I know just what to do

Come on, let's rip it, let's push that limit
If ya don't feel pain, that ya can't be winning
C'mon!

They said I wouldn't be nothin'
I said stop frontin'
Put the pedal to the metal
'Cause the storm is comin'
