

Beyond Recognition

Threat Signal

All hail the face of abomination
Deceive the minds of those
Who are sent to fight, who live their lives to die alone
We will succeed when you quit
The nation lost its patients
Lie us into war, trade blood for oil, we count the days

Emancipate from the sea of lies
Awaken and recognize the fate of mankind
Apocalyptic decay
Degeneration of all life as we know it, waste away

Live to die another day walking through this hell you've made
Our tears cannot be repaid
Slit through the wrist the blood running down my fingertips
I'd rather die than be slaved

You're planting the seeds of hate
For generations
Avoiding reality
Beyond Recognition

I'm reaching out towards the sky, begging for the answer
To see the truth, why they deserve to die

The innocent blood will shed
Eradication
Killing for your country
Beyond Recognition

I'm reaching out towards the sky, begging for the answer
To see the truth, why they deserve to die
