

## Comatose

### Threat Signal

I awake to find myself in comatose  
All these years I've been trapped and so blind  
If nothing is real, than nothing is true  
Trapped in a prison, confined without virtue

And I can't save myself

Dislocated from so called reality  
I walk alone away from disease  
My reflection dies  
Killing my mind away tearing life out of me

And I can't save myself

Take all of this pain inside  
And throw it all away  
Take all of this hate inside  
And kill it all away

Welcome to the abyss of my dementia  
Am I awake or only breathing?  
I feel nothing  
I'm frozen inside and life is burning my mind away

And I can't save myself  
Wake up  
And I can't save myself

Take all of this pain inside  
And throw it all away  
Take all of this hate inside  
And kill it all away  
Take all of this pain inside  
And kill it all away

Wake up
