

# The Beginning Of The End

## Threat Signal

Realize the pain envision the fear  
That goes on every year  
Devour your pride  
acknowledge the hate  
That we see everyday  
Decide weather to fight for your  
rights or let life pass you by  
Confide within the strength of yourself do not  
ever lay down and die

We're at the edge  
We're closer to death  
The  
beginning of the end

We are the ones who pay  
We pay for your actions

We'll die again today  
Unless we take action

Take all the strength from  
the weak  
Find more ways to use them  
Mankind does not have the right  
Now we  
all must repent

We're at the edge  
We're closer to death  
The beginning  
of the end

We are the ones who pay  
We pay for your actions  
We'll die  
again today  
Unless we take action

Now we must seek forgiveness

We we're  
all at the edge  
We're closer to death  
The beginning of the end
